

PRESS RELEASE Press Release PRESS RELEASE

www.MrForklift.co.uk

The popularity of 'eBay' can be partly attributed to our desires to make some money from items we no longer use – after all, they do say that 'one man's trash is another man's treasure'.

One local businessman is using this theory to launch an auction style website for buying and selling fork lift trucks, pallet trucks and other powered warehouse machinery.

"There must be hundreds of these sorts of disused vehicles, left abandoned in the corners of warehouses, yards and out buildings," said Harold Thomas, creator of the new site. "As new models are introduced, old trucks are often kept in reserve as a back-up or for spares, but it is often the case that they just get forgotten – using storage space that could be well used for something else.

"By selling this equipment, businesses can realise an asset with the minimum of fuss and effort and what's more, the buyer will come to collect it – all very easy!"

The auction site – www.mrforklift.co.uk, is now accepting new stock and has been designed to sell a wide range of equipment. All users must be registered with the site but as an introductory offer, all new members will receive creditan register for free, as the £15, to use in setting up adverts- and as most features in an add cost only 1p this is an offer worth taking advantage of!

"We want people to see the benefits of this type of commerce," added Harold. "It is an easy way to sell but also offers great opportunities for buyers to pick up a bargain – replacing machinery at a fraction of the usual retail price or for tracking down spares. Everyone wins!"

mrforklift.co.uk gives full instructions for using the site and is now on line. For more information email, bigh@tttbay.co.uk or go to the sit and sign on now.
